I raised the issue of increased space for HAC/542 at Cx Com. Concurrence to move them from HQ to Rosslyn and find space for five people. Eventually should provide space in IC staff area when ICs relocated.

MEMORANDUM FOR THE RECORD

SUBJECT: Request for Additional Space by HAC/S&I Staff

Background:

A member of the Office of Congressional Affairs (OCA) advised that Director, OCA met with Ralph Vandergrift, Jr., Chief/Surveys and Investigations Staff (S&I)/House Committee on Appropriations (HAC), and that the latter had requested that CIA provide additional work space to accommodate an increase in HAC personnel working on projects at the Agency and additional storage (safe) space to allow for the consolidation of project reports and materials in one location. Members from the HAC Staff have been utilizing Agency office space on and off for a number of years. They conduct research and prepare studies not only on CIA activities but on activities at other agencies in the Intelligence Community and store/house their studies here.

Current Situation:

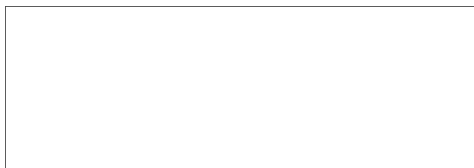

Until recently, the HAC/S&I team working at the Agency consisted of two individuals who, when on the compound, work in Room 1D49, a small room across from the Office of Medical Services. In December 1987, the HAC Staff was directed to undertake additional work--a second study--which necessitates an increase in assigned personnel to circa five. Thus, existing office and storage space is inadequate. Space in the Headquarters Building is preferred; however, space in the Rosslyn or downtown area will be perfectly acceptable. The Staff also prefers a vaulted area but, if unavailable, requests additional safes so that all sensitive information can be consolidated in one place.

Resolution & Issues:

There is no space available in the Headquarters Building; however, space can be provided in the Rosslyn area.

Are there any political ramifications associated with expansion of staff and increase in space at our facility?

Dear Judge Webster:

In accordance with the provisions of Section 202(b), Public Law 601, 79th Congress, this Staff has been directed by the Committee on Appropriations to make an inquiry into the recent history, status, and potential of advanced submarine technologies.

In this respect, it will be necessary for us to request you designate a point of contact within the Central Intelligence Agency as it has come to our attention that your analysts regularly provide analytical input to the U.S. Navy's submarine program.

We will be pleased to meet with whomever you may designate to arrange for obtaining the data pertinent to this inquiry. If there are any questions regarding this matter, I can be contacted on 225-3881.

Sincerely yours,

R. W. Vandergrift, Jr.
Chief of the Surveys and
Investigations Staff
